

Feedback and reflection

Based upon the feedback on your previous report, which skills need to improve in your next lab?
Read the feedback again and write down (each one separately) the most important feedback for you.

Table 1: Feedback received on your previous lab report

	Writing Skills	Lab Skills
Ishak LEVENTOG LU	1.Scientific writing style	1.Preparation for lab
	2.Formatting tables and graphs	2.Participation in lab

Student 2	1. Paying attention to style of report	1 Proper preparation
	2.Less vague statements	2.

Choose from the feedback on your previous report two aspects (writing or lab skills or one of each) that you focused on in this report.

table 2: Feedback applied in this lab report

	Writing and/or lab skills
1.	Formatting tables and figures
2.	Proper style for the document
